

## **Student visa route – guide to online application**

For students applying inside the UK

## **Before you start your visa form please read the following:**

1. Once you start your visa form, you will be emailed a direct link to your form during the registration process. This is the only way you can access your form so keep this email in a place you can easily find it again.
2. You can save your form and return to it later.
3. Once you digitally sign the Declaration, you cannot make any changes to your answers.
4. If you want your visa application form and documents checked, **you must stop** at the Declaration stage. Do not go past this point as any mistakes that an adviser finds cannot be fixed. If the mistakes are significant, you may need to cancel your visa application and request a refund which can take several weeks. You then need to start a new form and make your application again.
5. You should not pay for your visa application until you meet the financial requirements as these requirements must be met on the day you pay the application fee, not the date of your biometric enrolment.
6. One of the main reasons a student visa application is refused is that the applicant has not met the financial requirements. Read through our [guides](#) so that you understand how the visa process works and the types of documents you will need.
7. **If you have previously submitted your biometrics (photographs and fingerprints) to the UKVI, you may be invited to use the 'UK Immigration: ID Check' app to complete your application. Using this app will mean that the biometrics that you submitted previously will be reused.**

**If you are instructed to use the app, you will be asked to take a photo of yourself and your travel documents and upload your mandatory and optional documents using your smartphone. If eligible to use the app, you will not be required to attend a UKVCAS centre.**

## Extend your visa

You may be able to extend your Student visa to stay longer and continue your course or study a new course. This includes if you currently have a Tier 4 (General) student visa.

To extend your visa you must:

- be in the UK on a Student visa or a Tier 4 (General) student visa
- have an [unconditional offer of a place on a course](#) with a licensed student sponsor - shown by your Confirmation of Acceptance for Studies (CAS)
- show that your studies are at a higher academic level than your current course (called the 'academic progress requirement') - there are some exceptions

If you've been in the UK with a valid visa for less than 12 months, you'll need to [prove you have enough money to support yourself in the UK](#).

Your [partner or children](#) will need to apply separately to extend their visa. They can either apply at the same time as you, or at any time before their current visa expires.

You can also [switch to a Graduate visa](#) to stay in the UK for at least 2 years after successfully completing your course.

Scroll down until you see 'Start now'.

## Showing academic progress

If you're currently studying in the UK, you'll usually need to show your studies will be at a higher academic level than your current course.

Your new course must be one of the following:

- at a higher academic level than your current course
- at the same level and related to your previous course or career aspirations - it must be degree level or above at a Higher Education Provider (HEP)
- intercalated to a medicine, dentistry or medical science course you started studying under your Student visa (including a Tier 4 (General) student visa)

You do not need to show your studies are at a higher level if you're doing one of the following:

- resitting exams or repeating modules
- applying for the first time to a new institution to complete a course you started at an institution that lost its student sponsorship licence
- applying after working as a student union sabbatical officer to complete a qualification you started studying under your last Student visa (including a Tier 4 (General) student visa)
- completing a PhD or other doctorate that you started studying under your last Student visa (including a Tier 4 (General) student visa)
- continuing your medical, dentistry or medical science degree after completing an intercalated course
- applying to extend your stay to complete your studies because you've done (or want to do) a work placement or study abroad programme

[Read the guidance for more information about when you need to prove your studies are at a higher level.](#)

### If you're applying to work in the UK

You can get a CAS if you're applying to work as a student union sabbatical officer.

## When to apply

The earliest you can apply is 3 months before your course starts.

You must apply before your current visa expires. Your new course must begin within 28 days of your current visa expiring.

For example, if your visa expires on 1 December, you must apply for a new visa before 1 December. Your new course must begin by 29 December.

You must also apply within 6 months of getting a [Confirmation of Acceptance for Studies \(CAS\)](#).

You can stay in the UK until you get your decision.

If you applied for an [administrative review](#) because your application was refused, you can stay in the UK until you get your review decision.

## Fees

For each person, you'll need to pay:

- £524 to extend this visa
- [the healthcare surcharge](#)

You'll need to have your fingerprints and a photo (biometric information) taken - there's no fee for this.

## Apply

You must apply online.

As part of your application you'll need to prove your identity. How you do this depends on where you're from and the type of passport or resident permit you have.

You'll either:

- use the 'UK Immigration: ID Check' app to scan your identity document - you'll also create or sign in to your UK Visas and Immigration (UKVI) account
- have your fingerprints and photo (biometric information) taken at a [UK Visa and Citizenship Application Services \(UKVCAS\)](#) service point

You'll be told what you need to do when you apply.

## Check you can use the app

You can use the app on:

- an iPhone 7 or newer models
- an Android phone with near-field communication (NFC)

Check the phone's settings to see if it has NFC. The phone has NFC if you can use it to make contactless payments.

### If you do not have a phone

Ask a friend or family member if you can use their phone. No information is stored on the app or phone after you close it.

You do not have to apply on the phone - you can do the rest of your application on your computer or another device.

We will send your decision letter by email – this can be your email or someone else's. You do not use your decision letter to prove your status.

[Continue](#)

[I cannot use the app](#)

[I am applying in the UK and I cannot receive my decision letter by email](#)

If you select continue, you may be invited to use the UK Immigration app to complete your application. Using this app will mean that the biometrics that you submitted previously will be reused.

If you select, I cannot use the app, you will be required to apply in a different way.

You will need to book an appointment to have your fingerprints and photo taken after you apply.

Do you currently have an application with the Home Office for leave to remain for which you have not yet received a decision?

If you have submitted any other application to the Home Office which has not yet been decided, submitting this application varies any previous application, unless the previous application was under the EUSS. This means that only this current application will be considered.

If you have submitted an EUSS application which has not yet been decided, both this application and the EUSS application will be considered. If you meet the requirements for both applications, we will contact you to ask you which application you want to be granted.

Yes  No

It will be calculated using the information you have provided. If you think the amount is too high, remember that the IHS is calculated on the length of your visa not the length of your course. Your visa will be valid before your course begins and for a period after your course ends. Our guide gives further details about this. You also need to account for the Home Office currency exchange rate which may not be favourable to you. After you have completed your IHS application you can return to your visa application.</p>
