

Tech Yard

Running January & February 2021

Tech Yard is a virtual club designed to bring young people together through creative computing. We are funded by the Creative Computing Institute and led by community-focused Creative Technologist Jazmin Morris.

Introduction to 3D modelling

Thursday 14 January
4:30pm - 5:30pm

In this session, Jazmin will be taking you through the basics of 3D modelling and design.

Code with blocks

Thursday 21 January
4:30pm - 5:30pm

In this session, Jazmin will be taking you through how to code using code blocks to create visual loops and animations.

Spice up your life with electronics

Thursday 28 January
4:30pm - 5:30pm

In this session, Ebony the Electric Engineer will be introducing you to basic electronics using cool simulation software.

Create art with the magic of coding

Thursday February
4:30pm - 5:30pm

In this session, Julia the Creative Technologist will be taking you through the magic of visual coding with Processing.

To join, please email Jazmin Morris on:

j.m.morris@arts.ac.uk

Exploring visuals with creative coding

Learn how to use simple, everyday mathematical tools to create exciting visuals with Josh the Creative Technologist. The session will be taught in Javascript and HTML using the online code sharing platform Mimic.

Thursday 11 February
4:30pm - 5:30pm

Please make an account at mimicproject.com before the session.

Introduction to game development

In this session, Jazmin will be taking you through game development and narrative with Scratch.

Thursday 18 February
4:30pm - 5:30pm

Public Showcase

This session will be a chance to showcase all the wonderful work that has been made this cohort and to meet more techies!

Thursday 25 February
4:30pm - 5:30pm

To join, please email Jazmin Morris on:

j.m.morris@arts.ac.uk
